## **Biography**

Miss Varanya Aranyavalai was born on May 18, 1970 in Bangkok, Thailand. She received bachelor degree in biology in 1992 from the Department of Biology, Faculty of Science, Chulalongkorn University. She continued her study for a master degree in zoology at the same institute in 1993. She attended the Ph. D. program in Biological Sciences in 1999 and was awarded scholarships from the University Development Committee (UDC), Ministry of University Affairs and the Graduate School, Chulalongkorn University for her study. She has been lecturer at the Department of Biology, Faculty of Science, Chulalongkorn University since 1994.
