CHEMICAL CONSTITUENTS OF EUPATORIUM ADENOPHORUM SPRENG.

Miss Sirinart Ananvoranich

A Thesis Submitted in Partial Fulfillment of the Requirements  
for the Degree of Master of Science in Pharmacy

Department of Pharmacognosy

Graduate School

Chulalongkorn University

1989

ISBN 974-569-970-5

Thesis Title                    CHEMICAL CONSTITUENTS OF EUPATORIUM  
                                  ADENOPHORUM SPRENG.  
By                              Miss Sirinart Ananvoranich  
Department                    Pharmacognosy  
Thesis Advisors               Associate Professor Nijsiri Ruangrungsi

Accepted by the Graduate School, Chulalongkorn University in Partial Fulfillment of the Requirement for the Master's Degree.

Thavorn Vajrabhaya, Dean of Graduate School  
(Professor Thavorn Vajrabhaya, Ph.D.)

สrinasa อนันต์วงศ์พิษย์ : สารเคมีจากดันสาบหมา (CHEMICAL CONSTITUENTS OF  
EUPATORTUM ADENOPHORUM SPRENG)

อ.ที่ปรึกษา : รศ. นิจศิริ เรืองรังษี. 149 หน้า

การวิจัยครั้งนี้มีจุดมุ่งหมาย เพื่อศึกษาทางพฤกษเคมีของดันสาบหมา ในแง่การแยกสกัด  
สารเคมีจากดันสาบหมา และใช้เทคนิคทางสเปกตรอลโคปี ในการพิสูจน์กำหนดสูตรโครงสร้างของสาร  
เคมีบริสุทธิ์ที่แยกได้

ผลการวิจัยครั้งนี้ พบสารเคมีจากสิ่งสกัดชั้นปีโตรเลียมอิเทอร์ของดันสาบหมา อาทิ สารใน  
กลุ่มเซสควิเทอโรปีนอยด์ ซึ่งมีโครงสร้างชนิดใหม่ໄสซ์อิว่า บูป่าโทรีโนน. สารในกลุ่มไฟโตสเดียรอยด์  
(เม็ดา-ลิโตกเดียรอยด) และสารในกลุ่มไตรเกอเรปีนอยด์ซึ่งบังเม่พิสูจน์สูตรโครงสร้าง

SIRINART ANANVORANICH : CHEMICAL CONSTITUENTS OF EUPATORIUM  
ADENOPHORUM SPRENG. THESIS ADVISOR : ASSO. PROF. NIJSIRI RUANGRUNG-  
SI, M.Sc. (Pharm). 149 PP.

This research work was emphasized on phytochemical study of Eupatorium adenophorum Spreng. Various spectroscopic techniques were employed for deducing the structures of two isolated compounds.

The petroleum ether extract from the dried whole plant of Eupatorium adenophorum Spreng. revealed the presence of a new sesquiterpene skeleton compound, which is named Eupatorenone. A phytosterol,  $\beta$ -sitosterol, and an unidentified triterpenoid were also isolated.

#### ACKNOWLEDGEMENTS

The author wishes to express her sincere gratitude to the followings :-

Associate Professor Nijsiri Ruangrungsi of the Department of Pharmacognosy, Faculty of Pharmaceutical Sciences, Chulalongkorn University, for his supervision of the research, helpful guidances, keen interest and continual encouragements throughout the course of this study.

Lecturer Kittisak Likhitwitayawuid of the Department of Pharmacognosy, Faculty of Pharmaceutical Sciences, Chulalongkorn University, for his coadvisor, helpful guidances, keen interest and encouragements during this work.

Dr. Wanchai De-Eknamkul of the Department of Pharmacognosy, Faculty of Pharmaceutical Sciences, Chulalongkorn University, for his kindly encouragements and interest during this study.

Professor Geoffrey A. Cordell, College of Pharmacy, University of Illinois at Chicago, Chicago, Illinois, U.S.A., for his kindly interpretation and identification of compounds.

Dr. Gabor Blasko, College of Pharmacy, University of Illinois at Chicago, Chicago, Illinois, U.S.A., for his interpretation and identification of compounds

All staff members of the Department of Pharmacognosy, Faculty of Pharmaceutical Sciences, Chulalongkorn University, for their kindness and help.

Graduate School, Chulalongkorn University, for granting her partial financial support of five thousand and nine hundred baht to fulfill this investigation.
