BIOGRAPHY

Miss Kullapa Soratana was born on 24th of January in Bangkok, Thailand. She studied in Australia for a year and finished preliminary course requirements for high school certificate from Bathurst High School, NSW, Australia in December 1996. She received a high school diploma from Horwang School, Bangkok in March 1998. She graduated a Bachelor's degree of Science in General Science with second-class honors, Faculty of Science, Chulalongkorn University, Bangkok in 2002. Her senior project resulted in a journal publication:

Naiyanan Ariyanon, Kullapa Soratana and Thidavisuth Chunkrua (2003), "Comparison of Zinc Accumulating Efficiency between *Brassica juncea* Coss. and *Brassica chinensis* Linn.", *Journal of Scientific Research: Special Issue on Environmental & Hazardous Waste Management*, Vol. 28 Special Issue I.

She continued her study for Master's degree of Science in Environmental Management (International Program), National Research Center-Environmental and Hazardous Waste Management, Chulalongkorn University and completed in December 2004. This thesis is to fulfill partial requirement of her Master's degree. She has recently accepted at a position as an environmental scientist for an environmental consulting and services firm, Metrix Associates Company Limited.
