

การเพิ่มเติมความแข็งแรงของเหล็กผสมใน โอบีเอ็ม และไทเทเนียม ปริมาณน้อย
โดยใช้ความร้อนเชิงกล

นายโดมเดช ศรีพิณเพราะ

**STRENGTH IMPROVEMENT OF Nb-Ti MICROALLOYED STEEL
BY THERMOMECHANICAL TREATMENT**

Mr. Domdeat Sripinpoach

**Thesis Submitted in Partial Fulfillment of the Requirements
for the Degree of Master of Engineering in Metallurgical Engineering**

Department of Metallurgical Engineering

Graduate School

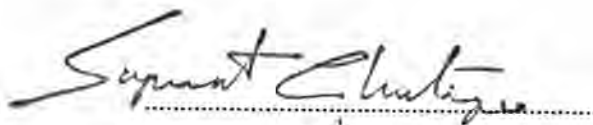

Chulalongkorn University

Academic Year 1997

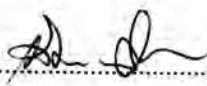

ISBN 974-638-833-9

Thesis Title Strength Improvement of Nb-Ti Microalloyed Steel by
 Thermomechanical Treatment
By Domdeat Sripinpoach
Department Metallurgical Engineering
Thesis Advisor Dr. Prasonk Sricharoenchai
Thesis Co-advisor -

Accepted by the Graduate School, Chulalongkorn University in Partial Fulfillment of
the Requirements for the Master's Degree

.....
(Prof. Doctor Supawat Sutiwong) Dean of Graduate School

THESIS COMMITTEE

..... Chairman
(Associate Prof. Dr. Chatchai Somsiri)

..... Thesis Advisor
(Assistant Prof. Dr. Prasonk Sricharoenchai)

..... Member
(Dr. Sawai Danchaivichit)

ACKNOWLEDGMENTS

The author would like to acknowledge financial support from Chulalongkorn University. I would also like to thank Associate Professor T. Kvackaj, Technical University of Kosice, for conducting all the experiments and testing, Professor J. Zmik, Technical University of Kosice, for conducting all the metallography sample preparation and evaluation. Special thanks to Dr. Prasonk Sricharoenchai for his kind assistance.

Abstract in Thai.....	iv
Abstract in English.....	v
Acknowledgment.....	vi
Contents.....	vii
Chapter	
1. Introduction.....	1
1.1 Introduction.....	1
1.2 Objective.....	1
1.3 Scope.....	1
1.4 Benefit.....	2
2. Literature Review.....	3
2.1 Structural development during reheating stage.....	3
2.2 Deformation in recrystallization region.....	14
2.3 Deformation in nonrecrystallization region.....	20
2.4 Effect of coiling temperature on mechanical property.....	32
3. Experimental.....	36
3.1 Simulation of reheating stage.....	36
3.2 Simulation of deformation in austenite recrystallization region.....	37
3.3 Simulation of deformation in nonrecrystallization region.....	38
3.4 Simulation of coiling stage.....	39
3.5 Grain size measurement method.....	40
4. Results and Discussion.....	41
4.1 Effect of reheating temperature on prior-austenite grain size.....	41
4.2 Effect of deformation in austenite recrystallization region on austenite grain size.....	49
4.3 Effect of deformation in nonrecrystallization region on austenite microstructure.....	52
4.4 Effect of coiling temperature on ferrite grain size and mechanical properties.....	63
5. Conclusion.....	70
