**APPENDIX****Appendix A Surface Area of Materials****Table A1** Surface area of materials

Material	Surface area (m <sup>2</sup> /g)
KY zeolite	588.9
BaX zeolite	625.4
NaX zeolite	776.6
Activated carbon	1,058.0
Silica gel	704.0

## CURRICULUM VITAE

**Name:** Mr. Pongpun Jukkaew

**Date of Birth:** September 4, 1989

**Nationality:** Thai

**University Education:**

2008-2012 Bachelor Degree of Chemical Engineer, Faculty of Engineer,  
Rangsit University, Pathum Thani, Thailand

**Presentations:**

1. Jukkaew, P.; Rangsunvigit, P.; and Kulprathipanja, S. (2014, April 22) Effects of zeolites and amorphous materials on the phase diagram of chloronitrobenzenes. Poster presented at The 5<sup>th</sup> Research Symposium on Petrochemical and Materials Technology and The 20<sup>th</sup> PPC Symposium on Petroleum, Petrochemicals, and Polymers, Bangkok, Thailand.
2. Jukkaew, P.; Rangsunvigit, P.; and Kulprathipanja, S. (2014, August 23-27) Effects of KY zeolite on the solid-liquid phase diagram of *m*- and *p*-chloronitrobenzenes. Poster presented at The 21<sup>st</sup> International Congress of Chemical and Process Engineering CHISA 2014, Prague, Czech Republic.
