Biography

Mr. Sakboworn Tumpeesuwan was born on the 6th September 1976 in Mueang District, Ratburi Province. He obtains his bachelor's degree of science in 1999 from the Department of Biology, Faculty of Science, Chulalongkorn University. He also graduated Master degree in zoology at the same place in 2002. After, he got the job at Palaeontology Research and Education Center, Faculty of Science, Mahasarakham University and started to study in Earth Science Program, Department of Geology, Faculty of Science, Chulalongkorn University by grant supports from Mahasarakham University since June 2002, and received the research grant from Chulalongkorn University in 2004.
