SYNTHESIS OF POLYOL ESTER LUBRICATING BASE OIL

Mr. Chokchai Suwanwuttiwat

สถาบันวิทยบริการ

A Thesis Submitted in Partial Fulfillment of the Requirement
for the Degree of Master of Science

Program of Petrochemistry and Polymer Science

Graduate School

Chulalongkorn University

Academic year 1997

ISBN 974-638-987-4

Thesis Title **SYNTHESIS OF POLYOL ESTER LUBRICATING
BASE OIL**

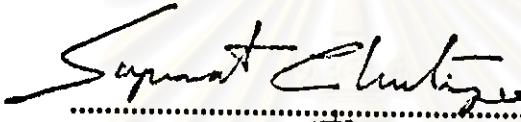

By **Mr. Chokchai Suwanwuttiwat**

Department **Petrochemistry and Polymer Science**

Thesis Advisor **Assistant Professor Amorn Petsom, Ph.D.**

Thesis Co-advisor **Mrs. Ratanavalee In-ochanon**

Accepted by the Graduate School, Chulalongkorn University in
Partial Fulfillment of The Requirements for the Master's Degree.

.....Dean of Graduate School

KEYWORD: SYNTHETIC LUBRICANT / POLYOL ESTER /

ESTERIFICATION

CHOKCHAI SUWANWUTTIWAT : SYNTHESIS OF

POLYOL ESTER LUBRICATING BASE OIL

THESIS ADVISOR : ASSIST.PROF.AMORN PETSOM,Ph.D.

THESIS CO-ADVISOR : Mrs. RATANA VALEE IN-OCHANON

73 pp, ISBN

Reaction of monobasic acids such as heptanoic acid, octanoic acid, nonanoic acid and 2-ethyl-hexanoic acid with polyhydric alcohols such as neopentyl glycol, trimethylol propane and pentaerythritol under concentrated sulfuric acid catalyst in the presence of toluene gave polyol esters in good yield. The optimum condition of reaction were 130 °C, 3 hours and 0.5-1.0 % by weight of catalyst. The products were characterized by $^{13}\text{C-NMR}$ and FTIR and they gave expected spectroscopic properties. Physical and chemical properties of polyol esters, such as pour point, viscosity, flash point and oxidation point were determined and it was concluded that polyol esters from trimethylol propane had good properties and potential to be used as refrigeration oils.

ACKNOWLEDGMENTS

At First, I am sincerely indebted to my thesis advisor, Assistant Professor Dr. Amorn Petsom for his inestimable advice, guidance, concern, understanding, kindness and encouragement throughout the period of my graduate study.

I am deeply be holden to Mrs. Ratanavalee In-ochanon my thesis co-advisor for her guidance and understanding and Associate Professor Dr. Sophon Roengsumran for his unfailing guidance and help throughout this project.

I wish to thank the thesis committee for their comments.

Thankful expression is also extended to all staffs of the Petroleum Authority of Thailand for their helps.

Finally, I would like to express my indefinite gratitude to my parents and girl friend for their love.
