The writer, Pornchai Taranatham, was born on April 14, 1945 in Nonthaburi. He received a Bachelor's Degree in Sanitary Engineering from Chulalongkorn University in 1968. After graduation, he joined the Engineering Division, Department of Town and Country Planning. At the time writing the thesis, he works in Regional Planning Division, as an engineer and analyst responsible for collecting, interpreting and presenting data and information on regional basis.
